Spot Broadleaf Weed  
Control as Needed.

We are currently in your neighborhood spraying dormant oil on trees and shrubs to protect them from insect damage. In the next few weeks, we will also begin deep root injection feeding. Call us today for more information on how you can protect your valuable trees and shrubs from damaging pests, such as the Emerald Ash Borer, the Asian Longhorn Beetle, and several other damaging insects.

Now is also the time to sign up for a Full Maintenance Landscape Contract. We have been performing Full Maintenance Contract Services for over 20 years! Bundle your lawn and landscape services together: Spring Clean Up, Mowing, Weeding, Fertilization, and Pruning are the five basic services for a full maintenance contract. Several extremely beneficial additional services can also be added, such as Injection Root Feeding, Ornamental Tree and Shrub Applications, Sprinkler Service, and Aerification. All the services in a Full Maintenance Contract are bundled together and broken down into 12 even monthly payments. If you prefer, you can pre-pay for the year and receive a 5% discount.

Visit our web site at [www.paramountlandscaping.com](http://www.paramountlandscaping.com). Also visit us and "like" us on Facebook. We appreciate your business and look forward to a Great 2012 Season. Happy Valentine's Day!!!

Thank You,  
Joe Tekulve ~ President/Owner
