- Last chance for sprinkler blow-outs. Avoid frozen pipes and damage to your system. Call today to schedule if you have not done so already. A friendly reminder: Store your backflow inside the house where it will not freeze. Also make sure to remember where you have stored it.
(See picture below of Justin holding a standard backflow). In the Spring when we start-up the sprinkler system, we make sure everything is working properly and adjust sprinkler heads. If there are repairs needed, we can also address them at this time. Keeping your system maintained and running properly saves you money!
- Three very beneficial services that can still be performed through the end of the year are: Injection Root Feeding, Fall Clean-Ups, and Aerification. Call the office at (513)984-5200 for more information, pricing, and scheduling.
- Turnkey Landscape Projects are the way to go! The Mohler family is enjoying their outdoor living space which includes a covered porch, fire pit, grill island with granite counter top and a paver patio. We also installed a sprinkler system. See the pictures below of their completed project. We take care of everything including designs and permits. Landscaping projects like these are great investments and are surprisingly affordable. We also offer financing, for example, 12 Months Same As Cash. Please don't hesitate to ask us for details.
- Now is the time to plan and design your next outdoor project! Call the office today at (513)984-5200 to set an appointment. Let one of our designers work with you to make your ideas and desires become a reality!
- Also consider a Full Maintenance Contract for next year. Bundle your services together and have us do everything for your lawn and landscape for one low monthly payment!

We appreciate your business tremendously and hope you and your families have a Safe and Enjoyable Holiday Season!

Thank You,
Joe Tekulve
President/Owner

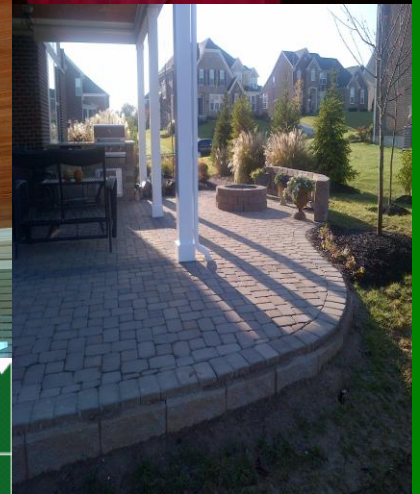

Happy Holidays
From
Little Joseph!
