

January 2010 Newsletter – “Save Money in Twenty-Ten”

Dear Valued Customer,

As we enter 2010, it is time to begin planning for the spring season. We are offering excellent money saving pricing incentives for customers who sign up for new services and full maintenance contracts **by Valentine’s Day, February 14, 2010**. Call us today at (513) 984-5200 to set up your full maintenance contract for 2010. Here are several of the benefits of having a full maintenance contract:

- [Bundle your lawn services](#) - For **one low monthly payment** make budgeting and billing easy.
- [One Company](#) - Using **Paramount Lawn and Landscape** establishes one company, one bill, and one contact instead of using separate companies for fertilization, mowing, mulching, irrigation, lighting, weeding, or other landscaping services.
- [Save MONEY \\$\\$\\$\\$](#) - We can save our customers up to **30%** on a full maintenance contract, compared to the total price of using several different companies.
- [Simplicity](#) – Our **trained, licensed, experienced** team members will perform your services correctly and at the proper times throughout the year.
- [Site Evaluations](#) – Your account manager will perform **regular site evaluations** to inspect your property for items such as weeds in the lawn and landscape, proper pruning and mowing, or thorough clean ups, so that you can enjoy the benefits of our landscaping services.
- [Make Suggestions](#) – Your **account manager** can help you with landscape renovations, hardscapes (pavers, stone designs, fireplaces, water features, and other hardscape designs), retaining walls, irrigation, lighting, floral installation, and many other services to enhance your property’s appearance and value.

Call our office to price and plan all of your lawn and landscape projects for 2010. We can design and quote any landscape renovations or additions. Please keep in mind that we are able to handle the entire project from start to finish. We install hardscapes, irrigation systems, lighting, plants, trees, shrubs, sod / seed, floral, and artificial turf, and we will maintain the project for less money than our competition, especially if you are currently using several different vendors. Please check out our website at paramountlandscaping.com.

We appreciate your business and welcome any feedback or special requests. We look forward to helping you make the most of your lawn in 2010!

Thank you.

Sincerely,

Joe Tekulve

President / Owner
