- Fall is for planting! October through March is actually the best time of the year for planting as long as the ground is not frozen. The Spring is a popular time for Landscaping only because it is on everyone's mind. Fall is a superior time to plant: The ground is moist. Plants become established and will flower nicely when the Spring arrives; and plants that have been growing in nurseries can be dug at this time of year. Please call the office so we can get started on your computer generated design including pavers, walls, water features, fireplaces, fire-pits, and LED lighting. Our imaginations are our only limitations!
- Sprinkler blowouts. Please make sure you schedule your sprinkler blowout now! You do not want your pipes to freeze. We only provide service for systems that we have installed. We will, however, try to refer you to a reputable company for those systems that were not installed by Paramount.
- Fall Clean-Ups. We automatically perform leaf removal services through Thanksgiving, which will be Thursday, November 24th. Leaf removal and Fall mulching can be performed as late in the year as you would like, so just let us know and we will take care of you.
- Additional important seasonal services include: Aerification, Injection Root Feeding, and Corrective Pruning.
- Call our friendly staff at (513) 984-5200 to request a proposal for Full Maintenance Contracts, Turnkey Landscaping Projects, and Sprinkler System Installations.
- Paramount would also like to welcome my son Joseph Michael Tekulve to our team. Joseph Michael was born on Sunday, October 30th. Pictures will be posted on Facebook and Paramount's "Meet the Team" page on our website www.paramountlandscaping.com.

We appreciate your business and look forward to building a growing and lasting relationship with each and every one of our customers. Enjoy November and Happy Thanksgiving!!

Thank You,
Joe Tekulve
