

May Newsletter 2011 – “April Showers...”

The near record breaking rainfall in April has shocked everyone! This April has been one of the wettest 30 day periods on record, with 13.52 inches of rainfall. The only other time when more precipitation was recorded was in January, 1937, with 13.68 inches. April showers might bring May flowers, but this year it has brought excess flooding, landslides, basement water damage, and overly muddy conditions in most areas!

Despite the rain, we are currently killing weeds with our second round of fertilization applications. Our trained staff members are experts in weed identification and proper control. Depending on specific weed types, and the chemicals used to treat them, please keep in mind that it may take a few weeks for the weeds to die after the application.

During the month of May, lawns and plants will be growing rapidly. This active Spring growth is due to a combination of heat, water, and stored energy. Most Spring growth will usually subside by June, which makes it a perfect month to prune, because plants will hold their shape longer.

Remember, with a full maintenance contract, we can take care of all aspects of your landscape maintenance. This includes mowing, pruning, weeding, fertilization, irrigation maintenance, and several additional services. You can get all of these services bundled together for your property for one low monthly payment. Call us today at (513)984-5200, and we can set up a full maintenance package to suit your needs promptly!

Sprinkler systems are a very important part of maintaining a beautiful landscape. We offer a Five-Year Warranty on the systems we install. Our staff has extensive training, as well as many years of experience. We have expertise in various designs and features, so please call us at (513)984-5200 with any questions, concerns, or for a free estimate.

This month we will be undertaking a very large project at Kenmore Towers, located on Kenwood Road. Here we will be helping prepare for their Grand Opening on June 9, 2011. Our designers are working diligently with their landscape architect on what is sure to be a beautiful turnkey project! This intensive project includes landscaping, flower installation, hard-scapes, seed, sod, an irrigation system and maintenance. Our team is prepared to offer you the same royal treatment, so please call the office at (513)984-5200 to schedule your landscape renovation. Our designers can present you with a full color design and detailed estimate of your property make-over!

We are currently extremely busy in all of our departments at Paramount Lawn and Landscape, but we want to make sure we are taking excellent care of each and every one of our customers. Your feedback is welcomed and encouraged, so that we may continue to provide a high level of service. Please feel free to email me directly at jtekulve@paramountlandscaping.com.

Have a great May, and let's hope it is a dryer month than April. We appreciate your business and look forward to serving you for years to come!

Thank You.

Joe Tekulve

President/Owner
