

# HAPPY HOLIDAYS!

The Holidays are upon us and all of us at Paramount are still busy! We are installing sprinkler systems, outdoor lighting systems, planting bulbs, and performing fall clean ups. We are also fertilizing lawns, spraying trees and shrubs and doing deep root injection feeding, as well as many additional services.

Our 6 application fertilization service is second to none. We use the highest quality products and our lawn techs are licensed through the Ohio Department of Agriculture. Remember that grub control is included in our program, which is not the case with our competitors. They will call you mid Spring to upsell you on a grub treatment, sometimes charging double the price of a normal application. We are currently offering a 5% discount if you prepay for the season.

Our products and services are priced competitively and we work relentlessly to control our costs and overhead. Though price increases are inevitable, we try to keep them to a minimum. Our product and labor costs have been increasing, which means we will have to increase our prices in order to stay in business and provide you with the best quality products and services. Also, starting in 2018, we will be charging a 3% credit card processing fee. Some credit card companies are charging us more than 3%. We can take an ACH (check by phone) or you can mail a check "fee free".

Keep in mind we still offer 12 months zero interest financing on all projects; e.g. Landscape Lighting, Sprinkler Systems, Paver Patios, Retaining Walls, Trees, Shrubs, Plants and much more. The 12 month zero interest financing is fast and easy and can be used for projects up to \$35,000. Call our office manager Sandra Dixon at [513-984-5200](tel:513-984-5200) and she will sign you up in minutes.

Please give us a call for any of the following services:

### Landscape Design & Installation:
