

# HEADING FOR THE HEAT!

July and August are always hot and usually dry. Make sure you use plenty of H<sub>2</sub>O on your lawn and plants.

Sprinkler systems are extremely important for optimizing the beauty and health of your lawn and landscape because water is the most vital component. Paramount Lawn + Landscape has been installing sprinkler systems for well over 20 years. Our staff is trained, experienced, and qualified. We use all RainBird products, which include a 5-year warranty (best in the industry). Remember: we only service the sprinkler systems we install.

LED lighting is another high-quality service and product offered by Paramount. Our customers are extremely happy and satisfied with their Sollos lighting systems. They love the light quality and the hassle-free, quick and easy installation. We schedule a day for the install, and we are usually finished the same day. We bury the wire and install the astronomic timer, transformer and fixtures with no mess. Besides seeing your new lights, you won't even know we were there. Please consider the LED lighting special, which includes 12 lights for \$2,950.00, because we will be raising the price very soon due to our increasing costs.

For the month of July we will be accepting American Express. Many of our customers have requested using their American Express, which we have not taken in the past. We have worked out a promotional trial period with our credit card processing company. So, for the month of July, feel free to use your American Express as a payment method. We also offer 12-months zero interest financing through Wells Fargo Bank, which can cover projects up to \$35,000.00!

Get your home ready for summer parties! Let us design and install your outdoor entertainment space!
